Shawn,

As I mentioned in my voicemail to you earlier today, we obtained a copy of the Deed Notice filed on August 30, 2010 by Bud Grisham for the Arkwood Site. Unfortunately, the Deed Notice filed by Mr. Grisham differs significantly from the Deed Restriction that was prepared for the Site and is inadequate. I would like to discuss this matter with you at your earliest convenience. Are you available for a call tomorrow? I would like to set up a call with you and Don Smith, my attorney, if possible. Thanks.

Jean

Shawn,

I'm traveling Mon-Wed this week for business so thought it was easiest to get back to via email. In your voicemail, you asked about the upcoming Third 5-Year Report. The report is scheduled to be submitted by March 2011. I was assuming that the format would be similar to the Second 5-Year Report; however, if you would prefer a different format, please let me know what you have in mind. We continue to see some variability in the PCP concentrations at the mouth of New Cricket Spring (16.3 ppb, 66 ppb, 15 ppb and 11 ppb for the past 4 months). We requested that Bud Grisham record the Deed Restriction by September 30, 2010. I don't have confirmation yet if this was completed. If you have any additional questions or need more information, please contact me.

Jean
